Helmholz®
COMPATIBLE WITH YOU

FLEXTRA PROFINET SWITCH 16-PORT, MANAGED, 10/100/1000 MBPS

The new FLEXtra PROFINET-Switch gives you **maximum flexibility** for any application through **freely definable ports**.
Connect PROFINET devices at 100 Mbps as well as Ethernet participants at up to 1000 Mbps with the same device!

▷ **One switch** — designed for seamless communication between control level and machine network.

Product highlights:

- PROFINET ports freely definable
- Fail-safe through redundant power supply
- Layered design for optimized cable management
- Highly visible LEDs on the front for easy diagnosis
- Quick commissioning via GSDML file
